INSTALLATION

1. Remove stand from packaging box. Place on top of counter or if desired, firmly secure the base by bolting three(3) screws from the bottom of a flat counter surface through the base plate . (Screws are not included as they need to suit your specific desktop or platform thickness) .
2. Mount any 10"-22" LCD Monitor, touch screen , or All-In-One Monitor to stand by aligning the VESA Pattern Holes (75mm x 75mm or 100mm x 100mm) on back of LCD or case to the stand's mounting plate.
3. Adjust the stand's tilt adjustment as desired.
4. Guide cable connections down and out through the cable opening.
5. Make cable connections as needed.

TOOLS AND HARDWARE REQUIRED

- NO other hardware or tools are included for mounting stands to a surface. Hardware will need to suit your specific desktop or platform thickness.
- Phillips Head Screwdriver or power drill will be required to mount stand to surface (if necessary).

For additional accessories and other mounting solutions, contact your supplier or visit our website at www.mmfpos.com
